THE MAYSVILLE GIRL.

She Carries Away the Honors at Ward Seminary, Nashville.

On Wednesday evening Ward Seminary, at Nashville, Tenn., was the scene of a grand concert in which a young lady from this city took part.

Miss Suzanne Huston Hall, daughter of Mr. and Mrs. James H. Hall of this city, fully sustained the reputation enjoyed by Maysville people abroad, as the following complimentary notice from The Nashville American will show:

AT WARD SEMINARY.

The commencement exercises of Ward Seminary opened with a brilliant concert last night given by the pupils of Miss McIlwaine. The chapel was filled with an attentive and appreciative audience, and each member was warmly applauded. The recital was artistic and reflected the very highest credit upon the talented teacher. The program was short and showed varied taste in the selections. The young women played with technique and feeling, and without the nervousness that is usually considered necessarily of school girl's performances. It is impossible to give the just criterion to all the numbers, so delightfully were they rendered, but probably the most pleasing were given by Miss Suzanne Hall, who played Moszkawski's Spanish dance No. 3, with a great dash and brilliancy. Miss Lucy Chambers, who played Rubinstein's beautiful "Kamennoi-Ostrow" with poetic feeling, and Miss Watkins showed a clean touch and artistic execution in her rendition of Rubinstein's polka, "Boheme." The concerted numbers were very attractive and heartily applauded. The pupils were ably assisted by Misses Bessie Evans and Martha Scrugge with the voice, and Misses Ethel Morrison and Binnie Briggs with the violin. Miss Scruggs and Miss Briggs are already great favorites before music lovers, and their vocal and violin solos were rendered with that artistic effect that always characterizes their work. Miss Evans sang "Forest Worship" with superb effect, and Miss Morrison's violin solo, "Polish Dance," deserves especial mention.

Miss McIlwaine was warmly congratulated at the conclusion of the program.

Rev. DeWitt Talmage says: "A newspaper whose columns overflow with advertisements of business men has more influence in attracting attention to and building up a city or town than any other agency that can be employed. People go where there is business. Capital and labor will locate where there is an enterprising community. No power is so strong to build up a town as a newspaper properly patronized. It always returns more than it receives."

The past April will go down in history as the dryest and hottest April experienced for many years. Less than one fourth of an inch of water fell during the entire month. April showers were remarkable for absence. As a rule in the month of April about 3 50 inches of water fall in this part of the world; but last month breaks all records so far as this locality is concerned. The rain may come further along and bring the average up to the rule, but the prospects for another dry summer at this time seem to be good.

ORIGIN OF BLUEGRASS.

Not a Kentucky Product, For It Came from Indiana.

Indianapolis Journal.

"I notice by the papers that somebody in the South part of the state wants to know where Bluegrass first started," said Professor John Collett, ex state Geologist.

"A great many people contend that it was first found in Kentucky, but this is not so. Bluegrass is a native of the Wabash Valley in Indiana. It was found by William Henry Harrison's troops during his solemn march to Tippecanoe, in 1811. Harrison gathered a small army at Ohio Falls, and started North. At Vincennes the gallant heroes realized that they could not go 200 miles up the Wabash without feed for their horses. General Harrison had two cribs of corn at Terre Haute, and persuaded the men to go on. As they came on, with hungry horses and scant feed, they found the ground covered with Bluegrass. Six miles West of Newport, on the Collett farm, was found a bountiful supply of the Bluegrass. Some places in the bottom it was growing three feet high, and such feed had had never been heard of by the Kentucky soldiers. At State Line City more Bluegrass was found, and from there to Tippecanoe the whole line of march was covered with Bluegrass. The seed was carried back to Kentucky, and sown there, but they could not make it thrive alone in the warm soil, and it had to be sown with oats and rye. Mr. Sanduisky, the father of the present family of that name, told me in an early day that no Bluegrass grew in Kentucky until after it was imported from Indiana. Tom Downing of Terre Haute was an ardent admirer of Henry Clay, and once went to visit him at his home near Ashland, Ky. After seeing the fine farm, well set in Bluegrass, Downing suggested that Mr. Clay let him have some of the seed to take back to Indiana.

"'Tom, don't make a fool of yourself,' said Clay, 'the grandsire of Kentucky Bluegrass is growing around your house and in the fence corners of your fields. We got the seed from Terre Haute and the Middle Wabash, and after a hard struggle, got it to grow here in its present luxuriousness.'"

THE UNMARRIED MAN.

Twelve Reasons Why a Man Should Remain a Bachelor.

London Tid-Bits.

1. If a man is naturally selfish, for goodness sake let him always look after No. 1.

2. If his mother is the best cook in the world, let him stop with her.

3 If, whenever he opens his mouth, he is always putting his foot in it, he had better never propose to a girl.

4. If he is a thorough miser it were better for him to remain singular-ly miser-able.

5. If he is generally a woman-hater, let him become a hermit in the Isle of Man.

6. If he detests children and calls them pests, he is evidently uncivilized and unworthy to frequent the haunts of a civilized community.

7. If physically and constitutionally unfitted for matrimony, it is nothing less than criminal for him to marry.

8. If a man is blessed with a good sister to whom he is ever unkind and even cruel, he is certainly unsuitable for a partner to anyone else's sister.

9. If a man is earning less salary than the woman whom he might care to marry is earning, let him not marry her.

10. If a man would be likely to prefer after marriage the company of club associates and the pleasures of the billiard table to the sweet companionship of a wife and the hallowed happiness of a home, let him refrain from thinking of marrying.

11. If a man will be unable to maintain a wife as comfortably as she has been used to, and unless he has something saved toward future unforeseen eventualities, he had better remain a bachelor, for when poverty comes in at the door, love flies out at the window.

12. If he would be unwilling to frankly and candidly tell before marriage everything of his past life, which, in the event of his marrying, would, if found out, cause endless trouble and lifelong unhappiness, let him by all means remain single.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness that there is in it. Another one will look out at the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach the liver, the bowels, in perfect order and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, red blood flowing into a diseased spot, and the disease will not stay. A man lives on rich, pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common sense Medical Adviser," profusely illustrated.

WE'RE FOR AMERICA AMERICANS!

BRADLEY!

Kentucky's Own Son for President.

BRADLEY'S CURRENCY PLATFORM.

"I am opposed to the free and unlimited coinage of silver, believing it would destroy all National prosperity. The gold dollar is the best dollar, and I am in favor of making every other dollar equivalent to it in value. I am the friend of silver, and believe it can be best protected by holding its issue in such bounds as will insure its parity with gold as a circulating medium."—W. O. BRADLEY.

It's the same old song. The Democratic deficiency in Uncle Sam's Treasury for the first nineteen days in May is $5,325,233 97, for the fiscal year $28,780,-424 67 and for the Cleveland Administration $141,388,908 43.

Thirteen cents is the highest price that has been paid for wool in Bath county this year. Wonder if some of those wool-growers who voted for Free-trade wouldn't like to return to the prices under McKinley Protection?

A writer in The Covington Commonwealth, correcting a cartoonist of The Commercial Gazette, says, "The mule does not represent the Democratic party." We see where the critic is right; nothing short of a thirty-third degree jackass will fill the bill.

If fifty cents worth of silver is to count for a dollar, why not have some legislation that would make a half bushel of wheat or corn count for a bushel. As some of the free silver advocates are so anxious to lift the burden from the agricultural classes this would help the farmers.

The Louisville Critic says Governor Bradley has granted no more pardons than other Executives, and in every case he has been petitioned by the best people in the community. If there be any one to blame, it is those who are so ready to attach their names promiscuously to petitions. A Governor never pardons anyone unless requested to do so by people supposed to be familiar with the facts in the case.

Governor W. J. Stone of Missouri may be erratic on the free silver craze; but in his speech at Lexington he uttered a "golden" sentiment when he said:

"Two hundred millions of dollars are taken abroad every year by pleasure seekers and husband-hunting mothers, who sell their daughters and other patrimony for the worthless title of a faded nobility. I would rather take my own daughters, the girls who slept as babies in my arms, whose blossoming beauty I have watched with parental pride, to the grave and bury them, pouring tears of sorrow on their coffins and listening to the broken sobs of their mother, rather than to deliver them into the lecherous arms of the fortune-hunting scions of some departed nobleman."

The Financial Record of New York, whose views are entitled to respect, gives this explanation of Russia's getting gold just now:

"The solution can likely be found in the fact that England buys a large quantity of wheat from Russia, which must be paid in either the Russian gold or silver ruble, of which she has no amount, and consequently has to remit gold or silver at the actual bullion value, if she sends silver she is compelled to go into the market and buy it, and necessarily put up the price, which of course would affect immediately her India exchange. In other words, all advances in silver cause an appreciation of the rupee, and relatively a decline in the purchasing power of the pound sterling. She therefore sends gold, which she secures from the United States, as her due on balance of trade."

Here we have England buying her wheat from Russia, when the Free-traders promised American farmers "the markets of the world" if they would only vote for Cleveland in 1892.

Worse still, England is carrying away Uncle Sam's gold to pay Russia for her wheat.

The farmer will after while learn the lesson that Protection is his only hope.

Texans do not care to deny that their big state is wild and woolly in spots, but they point with pride to the figures of the last census, showing that, while Texas has only 21 criminals to the 1,000 of population, Massachusetts has 23 and California 28 to the 1,000.

To fish with many men is to sleep There has now been invented a fishing apparatus in which the line is mounted on the end of a spring. In the event of a fish swallowing the bait an electric current is closed and the ringing of a bell brings the slumbering angler to his senses.

Li Hung Chang's coffin, which has arrived at London ahead of the distinguished wearer of the peacock plume, is reported to be a massive casket of the heaviest mahogany, cut from a single tree trunk. It measures eight feet nine inches long, three feet wide, and two feet ten inches deep. It is heavily girt by huge bands of brass, with mighty bandies all brazen. The claspings are bingeless, being roughly cast to fit the coffin shell.

Mr. D. P. Davis, a prominent livery-man and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommendig Chamberlain's Pain Balm for rheumatism, as I know from perfonal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by J. James Wood, Druggist.

KANSAS AGAIN.

Three Separate Cyclones Visit the Vicinity of Arkansas City.

No Lives Reported Lost, Much Damage to Property Resulted.

A Genuine Twister Passed Near Emporia, and One Man Is Perhaps Fatally Injured—A Cyclone Passes One Mile West of Burlington, Kan.

St. Louis, May 24.—Specials from various points in Kansas bring details of disasters by cyclones Wednesday night.

At Arkansas City, Kan., settlers living in the strip five or six miles southeast of this city Thursday reported that three different cyclone clouds swept their section of the country. No lives were reported lost, but much damage has been done to fences and crops, and on the Drury cattle ranch 30 head of cattle were killed.

At Emporia, Kan., about six o'clock Wednesday night a funnel-shaped cloud was noticed south of the city. Thursday morning it was learned that n genuine twister passed from southwest to northeast, about five miles south of here and near the town of Olpe, passing directly over the ranch of the Hughes Brothers, tearing n portion of their dwelling house to pieces and throwing it across the Santa Fe tracks. The barns, corn cribs and outhouses were all blown away. Wm. Hughes was caught in the wreck of the barn and it is supposed that he is fatally injured.

At Burlington, Kan., a cyclone passed one mile west of the city Wednesday evening, tearing down a building on the farm of W. H. Clark. The people here had a fine view of the cloud and watched it from the time it formed until it went to pieces north of the city. It was funnel shaped and moved with great speed.

MEETS WITH DISFAVOR.

The Changing of the Establishment of the Johannesburg Reform Leaders is Unpopular.

PRETORIA, May 22.—The sentence of 15 years' imprisonment imposed upon the leaders of the Johannesburg reform committee, who were originally sentenced to death for high treason, is regarded with disfavor by the public here, and has caused a great revulsion of feeling among the Africanders. It is felt that the government in not liberating the prisoners has lost the chance of uniting the opposing sections of the population in the Transvaal, and that the evil consequences will be serious. It is creditably stated that President Kruger for three days persistently nrged the executive council to substitute fines for imprisonment in the cases of all the prisoners, but that he was overborne by a majority of the council.

LONDON, May 22.—The Times Friday publishes a long dispatch from Pretoria detailing the excitement arising from the heavy sentences imposed upon the members of the reform committee. The dispatch says that the wildest kind of talk is indulged in and that the situation is critical. The foreign residents of the Transvaal are dismayed. They are convinced that Great Britain will not meddle with their affairs or with the sentences of the prisoners.

No Gold Bonds Will Be Issued.

LINCOLN, Neb., May 22.—Editor W. J. Bryan's paper announces that in the district court enjoining the city from issuing something over $500,000 in gold funding bonds. Mr. Bryan did not consider the legality of the bonds only so far as the gold provision was concerned, he unhesitating that coin bonds were sufficient. Judge Holmes sustained this view in so far as it referred to payment in gold and made the injunction perpetual. The case may be appealed.

A DEATH TRAP.

An Old Building at Buffalo Collapses Without Warning.

Four Persons Are Known to Be Dead and About a Dozen Injured.

The Building Was Undergoing Extensive Repairs at the Time of the Accident—Several Men Are Missing and It Is Believed They Are Under the Debris.

BUFFALO, N. Y., May 23.—A section of the Seneca street front of Brown's building collapsed at 9:30 o'clock Thursday morning, burying a score of people in the ruins. George Metz, a barber, and Jennie Griffith, cashier in the barber shop, are killed. William P. Straub, a contractor, is known to be in the ruins, and a dozen others are more or less injured, one of whom will probably die.

Those at the hospital are: Jacob Langdon, barber, scalp torn and body contused; Wm. Alexander, steam fitter, scalp wounds and body bruised; Jacob Rickman, barber, injured about the body and head; S. L. Hawke, carpenter, skull fractured, may die; James Adams, mason, 19 Chandler street, scalp wounds and injured hip; Michael O'Brien, carpenter, wrenched back and scalp wounds; Joseph Bullard, plasterer, injured internally; Edward Murphy, plasterer, injured internally, right arm injured; Fritz Format, German laborer, badly bruised.

Brown's building stood on the corner of Main and Seneca streets and for years the Western Union Telegraph Co. had occupied the ground floor corner as a business office and all of the fourth floor as an operating room.

The building was filled with offices, many of which were occupied, and on the ground floor on both Main and Seneca streets were stores occupied by merchants.

The Western Union left the building a few weeks ago and the owners of the block began the work of remodeling and strengthening it. On the Seneca street side, workmen were engaged in putting in piece new columns and beams and new foundations for them. Numbers 8 and 10 Seneca street were unoccupied, the principal alterations being made at that point. No. 12 was occupied as a barber shop by George Seinert and No. 14 by James Clegg's jewelry store and Thos. Jones' news stand. The offices on the floors above were nearly all tenanted, and altogether there were probably 50 people in the collapsed section. The walls fell with a crash taking down roof and ceiling with them.

Iron columns were twisted as though they had been soft wires. Heavy wooden beams were torn to pieces like paper. Pillars of brick crumbled to pieces, not strong enough to resist the strength of the weight that had fallen upon them. Here and there could be seen people who had not been caught in the falling debris, rushing to a place of safety. The outer wall fell into the street, burying those who had not had time to escape.

LATER—12:40 a. m.—The body of a man about 28 years old whose name is reported as DeEgler, a laborer, was found by the searching party in the rear of the building.

THE CONFERENCE.

The Beginning of the End is at Hand—The Two Bishops Will Be Consecrated Next Tuesday.

CLEVELAND, O., May 22.—Bishop Merrill presided at Thursday's session of the general conference. The beginning of the'end is at hnnd and a motion was adopted ordering that no more memorinls or resolutions be sent to committees.

The two new bishops will be consecrated next Tuesday in Central Armory. The Epworth memorial wanted the consecration services held in their church and accordingly invited the conference there. The invitation was declined with thanks.

Rev. Dr. Morris, fraternal delegate from the church south, bid the conference good bye in a 15-minute speech. He said that the two great churches should be united.

The table which has been used by the conference of the industrial school at Venice was auctioned off for the benefit of the Venice school. John E. Andrus paid $500 for the table. A. J. Kynet and W. A. Spencer were elected secretaries of the board of church extension on the first ballot. Rev. Dr. W. T. Smith, of Des Moines, was elected third secretary of the missionary society on the sixth ballot. The vote: W. T. Smith, 291; J. W. Hamilton, 205.

The report of the committee on Episcopal residences was read by Dr. Buckley. Boston and New York were made Episcopal residences. Then Cleveland was passed by.

The following is a list of the cities that will have Episcopal residences: Boston, New York, Buffalo, Philadelphia, Washington, D. C., Chattanooga, New Orleans or Fort Worth, Cincinnati, Detroit, Chicago, St. Louis, Topeka, Minnesota, Denver, San Francisco or Los Angeles.

THE CORONATION.

Thousands Witness the Triumphal Entry of the Czar and Czarina Into Moscow—The Carriages Are Built of Massive Gold.

MOSCOW, May 22.—The czar and czarina made their triumphal entry Thursday into Moscow from the Petrovsky palace, where they have been sojourning since Monday. Two thousand cavalry furnished the military escort, and the emperor and empress rode in the gilded coaches of state which had been transferred here from St. Petersburg. At intervals of a few feet, the country road and the city streets over which the procession passed, were arched with flowers and bunting, and relays of little girls dressed in white strewed flowers immediately in front of the royal chariot. Cannon boomed incessantly, and what, with the roar of artillery, the cheering of the multitudes of spectators, the brilliant uniforms of the cavalry and of the body guard of their majesties, the scene was gorgeous and inspiring.

Upon entering the city the emperor and empress immediately proceeded to the Uspenisky cathedral, in the Kremlin, where a grand Te Deum was sung in their honor. The service, including the celebration of the Greek mass, occupied three hours. Without any interval the whole train of the imperial party next visited the Archangel and Blagoveatchensk cathedrals, where they venerated the relics and offered up prayers at the tombs of their imperial ancestors. Thursday afternoon the emperor and empress proceeded with the same state as in the morning to the Alexandrinski palace, on the southern outskirts of the city, where they will remain until the coronation next Tuesday.

The signal for the commencement of the day's movements was a salute of nine guns from a battery outside the city. This was followed by the dull booming of the big bell of the Cathedral of the Assumption and the assembling of the troops at their various mustering points.

Then the countless high dignitaries of the empire and of foreign countries began to gather at the Petrovski palace to take their places in the gala equipages or to escort on horeback the carriages of their imperial majesties. The grand dukes and grand duchesses, the prince and princesses, the Asiatic personages, the innumerable representatives of every country under the sun assembled here to do honor to the czar of all the Russias, the ruler of the mighty empire which half circles the globe.

Generals with their staffs, aide-de-camps, riding at breakneck speed, orderlies galloping furiously, were to be seen everywhere. The clash of arms resounded on all sides and most impressive was the gathering of the hosts of the mighty emperor.

At 2:30 p. m. there was a further thundering of the cannon, coming from the direction of the Petrovski palace, and that living mass of men and women gave a great sigh of relief, for it was the sign that the czar had started on his journey to the Kremlin.

Eight hundred thousand people have come, some from enormous distances and by rails to see the sight, thousands of whom are content to camp in any open space available. They venerate the czar. If they catch a glimpse of him in the distance, and there are few of them who do more, they will be perfectly satisfied. The gilt carriages of the procession are of massive gold.

THE PRESBYTERIANS.

Their One Hundred and Eighth General Assembly Opens at Saratoga.

SARATOGA, N. Y., May 23.—The 108th general assembly of the Presbyterian church in the United States of America opened its sessions here Thursday in the First Presbyterian church with the usual sermon from the retiring moderator. Nearly 700 commissioners half ministers and half elders, occupied seats on the floor of the auditorium and as many more ladies and visitors were crowded upon the floor of the auditorium. Upon the platform were those who were to assist Moderator Rev. Dr. Robert Russell Booth, of New York, in the service, and in rear of the pulpit was the choir, greatly augmented from the local choirs for this occasion. The service, according to the book of discipline of the Presbyterian church, began promptly at 11 o'clock. Dr. Booth's sermon occupied more than an hour in the delivery. The committee on theological seminary and control, which has now been before three successive assemblies was in session all Wednesday night giving the last touches to the Report which is to be made to this assembly.

The work of retouching is still incomplete and several more all night sessions may be necessary to get the phraseology in the desired form.

Part of the report is now in the printers' hands and the rest will be ready as soon as the former harsh language and severe recommendations is translated into soft words and velvety phrases.

Rev. Dr. John L. Withrow, the liberal candidate, was elected moderator by a large majority.

THE EDICTS

Prohibiting the Exportation of Tobacco From Cuba.

Minister Taylor Instructed to Make Vigorous Protestations.

Cigar Men of Tampa Alone Have $700,000 Worth of Tobacco in Cuba—It Will Be Impossible to Get These Goods Within the Prescribed Time.

WASHINGTON, May 23.—Secretary Olney has instructed Minister Taylor to make vigorous representations to the Spanish government relative to recent edicts prohibiting the exportation of tobacco from the island of Cuba on the grounds that it amounts to the practical confiscation of goods in Cuba owned by Americans. The data on hand at the state department, supplied by the collectors of the Florida ports, show that the cigar men of Tampa alone have $700,000 worth of tobacco in Cuba paid for and subject to delivery, and that for all the other Florida ports there is as much more. It will be impossible for the merchants to get this property out of Cuba within the prescribed time, and Minister Taylor has been instructed to make such representations to Spain as will secure ample time in which to secure this property. It is believed that the tone of Mr. Olney's note will accomplish this result.

If it does not, other means will be taken. The Spanish government professes that this action is taken in order that Cubans loyal to the government in Havana, engaged in the cigar business, may have the leaf to work with, and that hostility to the United States has nothing to do with it. A resolution has been prepared and if within a few days the state department does not hear satisfactorily upon its protest, the resolution will be passed. It will give the president authority to prohibit, by proclamation, the importation into the United States of cigars and other manufactured tobacco from the island of Cuba. Inasmuch as the greater part of the Cuban cigars are exported to this country, this step will effectually offset the action taken under the edict of the captain general. The resolution will not be brought forward until it is apparent that Spain intends to harass the United States and make it impossible for her citizens to get the property on the island for which they have paid.

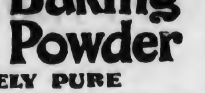
NEWSY NOTES FROM NATURE'S GREAT HIGHWAY.



The Sherley will pass to Pomeroy tonight.

Navigation was suspended last year to Pittsburgh on May 29th.

The Keystone State has laid up at Cincinnati on account of low water.

The river at this point continues to fall slowly, there being 6 feet 4 inches in the chanuel.

The Hudson turned back from Liver pool, there not being enough water. The Clara Cavett handled her trip on to Pittsburgh.

An aluminum boat for sportsmen's use has been made; it weighs but thirty pounds, is fourteen feet long and will carry two people.

The Courier Journal very aptly remarks: "Let the snagboat Woodruff go to work, or else swap her off for a baseball club and then kill the club."

The Courier on her up trip yesterday morning met with an accident just below the first bend that caused considerable delay. The Silver Wave brought her freight to this city.

At Hinton on New river there was a rainfall of 1.55, and the Great Kanawha is rising and will continue from heavy rains in the Virginias. At Pittsburgh there is a stage of 6.1, with 3.3 below Davis Island Dam and 9.8 at Wheeling. There is a 5-foot stage at Parkersburg, Catlettsburg and Portsmouth and 4.9 at Charlestou.

Pittsburgh coal operators have about 10,000,000 bushels loaded in the harbor and pools, most of it in coalboats. A large percentage of the towboats have reached there and laid up. Shippers to Southern markets have about suspended work at the mines, and many of the largest tipples along the Monongahela are idle.

Commodore Wash Honshell, the veteran boatman and for many years at the head of the Big Sandy Packet Company when it was at its zenith and one of its projectors, has been quite ill for a long period at his home in Catlettsburg. He is suffering from a disease of the kidneys, and with his advanced years his condition has become alarming to his many friends.

A new law of the Government requires all vessels in the mail service of Uncle Sam to float the regulation colors when in port and at other times when the weather conditions will permit it. The mail flag is a beauty, having a solid red field, with a blue border all around and the American eagle in full flight carrying the American shield in its claws is also of blue, while in large white letters clear across the field are the words "United States Mail." The flags must be eighteen feet long and fifteen wide, proportioned after the pattern of Old Glory. Only steamers that carry the mail are permitted to float these flags

INSTRUCTS A BARKEEPER.

A New York Mixer Taught How To Make Mint Juleps.

New York Sun.

The time has arrived for the annual summer contention on the part of visiting Southerners that bartenders in New York cannot master the mysterics of a mint julep, and that their concoctions only faintly resemble those put together in the South. Perhaps a mint julep may not taste as pleasing when drunk in a marble barroom in New York as when sipped on a Southern veranda, but New York has several experts in this line, and they declare that their mint juleps are the best that can be made. Several years ago, when Colonel Bullitt of Kentucky was in New York on his bridal trip, he stayed at a New York hotel that had just been opened. The Colonel called for a mint julep, and the result shocked him. The barteuder pounded the mint in the glass and otherwise mutilated the Colonel's favorite drink.

"I have been drinking juleps for nearly half a century," said the gallant Colonel, "and I never tasted anything like that." Then he taught the bartender how to mix one, and with a little coaching his pupil became an expert. This hotel is now celebrated for its mint juleps. The demand for mint for bars has steadily increased in New York. The gin rickey, however, has run the mint julep a close race for the past two summers, and last year the demand for this drink was so large that several times during the season the supply of limes gave out.

The people of New York drink 5,000,000 gallons of whisky a year.

The deepest British coal mine is the Ashton Moss colliery, which goes down 3,150 feet.

If a well could be dug to a depth of 46 miles, the air at the bottom would be as dense as quicksilver.

It costs four times as much to govern American cities as is spent for the same purpose in Great Britain.

A train runs now between Paris and St. Petersburg in forty-eight hours, the only change of cars being at the Russian frontier.

The advertising columns of THE LEDGER speak for themselves. They show that people who know *how* to advertise know also WHERE to advertise.

It would be interesting to know what would be considered proof of guilt in Oregon, Mo. A girl who confessed that she poisoned her father has been officially declared innocent.

A horse dealer in West Woodstock, Vt., has owned 452 horses during his life, and never told a lie, at least not about a horse. One man who has dealt with him was so impressed with this remarkable fact that he recently gave him a hatchet.

For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhœa Remedy, a medicine that every family should be provided with. How to Treat a Wife.

From Pacific Health Journal.

First, get a wife; second, be patient. You may have great trials and perplexities in your business but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by J. James Wood, Druggist.
